```
graph BT; A["src/Software/ENERGIS_RTOS/src/web_handlers/page_content.c"] --> B["src/Software/ENERGIS_RTOS/src/html/settings_gz.h"]; C["src/Software/ENERGIS_RTOS/src/web_handlers/settings_handler.c"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a grey rectangular box containing the header file path: `src/Software/ENERGIS_RTOS/src/html/settings_gz.h`. Below this box are two white rectangular boxes. The left box contains the source file path: `src/Software/ENERGIS_RTOS/src/web_handlers/page_content.c`. The right box contains the source file path: `src/Software/ENERGIS_RTOS/src/web_handlers/settings_handler.c`. Two blue arrows point from the top of each bottom box to the bottom of the top box, indicating that both source files include the header file.
