

get_networkMAC

```
graph LR; A[get_networkMAC] --> B[macfmt]
```

A diagram showing a call from the function `get_networkMAC` to the function `macfmt`. The `get_networkMAC` box is white with a black border, and the `macfmt` box is gray with a black border. A blue arrow points from the right side of the `get_networkMAC` box to the left side of the `macfmt` box.
