The diagram illustrates a data structure layout. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'get_ocp_LAST_TRIP_MS' and the bottom box contains 'get_ocp_TRIP_COUNT'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'u32le', indicating that both fields are represented by a 32-bit unsigned integer in little-endian format.
